

Login page - Forgot password link returns 404

Description

The Forgot password link on the Login page points to a non-existent route and opens a 404 page. Users cannot initiate password reset from the login screen.

Preconditions:

- Login page is accessible
- User is logged out

Steps:

1. Navigate to /login
2. Click the Forgot password link
3. Observe the opened page

Expected result:

- User is taken to the password reset screen with an email input and Submit button
- Correct URL is loaded, for example /reset-password
- Page title and H1 clearly indicate password reset

Actual result:

- 404 Not Found page is displayed
- URL is incorrect, for example /password-reset or a missing route

Logs:

- screenshot: forgot-password-404.png

Checkout - payment timeout creates Pending order and clears cart

Description

During card payment the PSP time out. The app shows a generic error and clears the cart, but a backend order is still created with status Pending. The user does not see a confirmation and cannot retry payment without re-adding items.

Preconditions:

- Product P1 is in stock, user is a guest - clean session, cart is empty

Steps:

- Add Product (P1) to cart and proceed to Checkout as guest
- Fill shipping address and select a shipping method
- Choose card payment - enter card 4000 0000 0000 0002
- Click Pay and wait for the timeout

Expected result:

- Cart stays intact
- No order is created
- User can retry the payment

Actual result:

- Cart is cleared
- Order is created in backend with status Pending
- User cannot retry without re-adding items

Logs:

- screenshots: payment-timeout-1.png - payment-timeout-2.png
